

KAI-SHIN KARATE "NORTH BRANCH"

Chito-Ryu Karate-Do

Michael Chapman - Roku Dan

Any sword that is sharp enough to cut has the potential

to do damage, but the sharper the sword...

*the **DEADLIER** the weapon!*

TAMASHIWARAI

A razor sharp blade is formidable even in the hands of an unskilled fighter, while a sword with no edge is of little use even in the hands of a master.

Breaking practice allows you to hone your weapons to maximum effectiveness. As a practitioner of combative martial arts, one must forever strive to reach the goal of "one strike, certain death"
